

KING OF THE ROAD

Roger Miller

The complete tab is for more advanced level...However...
However the first 4 lines (which includes ending "1") are fairly easy, and give the full tune before the well known key change. After ending "1" go back to bar 2 near the beginning (bar 1 is only an intro). You can go round and round endlessly.
If you feel braver, finish on ending "2" and then tackle lines 6 to 9. GOOD LUCK.
ROGER MILLER 1964
