

OH SUSANNAH

gDGBD

S.Foster

Straight forward except.....except the 2-0 pulloff in line 2 where you have to get it straight back on for the chord.

I prefer to do the pulloff first with the third finger and then drop the whole chord on for the brush thumb action.

S FOSTER 1848

Not a rock song. Not a chart topper.

However you cannot leave this out of a list of popular songs.

It was written in 1848. It is now regarded as one of the best top 100 Western songs of all time.

Prior to its arrival no American song had sold more than 5000 copies

Susanna sold over 100,000.

It is in nearly every Clawhammer Banjo song book and every banjo website.

That's popular!!!! Now its on our site .
